

Fire Fighting Shovel

A firefighter's shovel has a smaller blade and longer handle than a regular garden shovel. The head is angled forward to facilitate scooping and scraping dirt. The edges of a fire shovel blade are sharpened up to one and a half inches of the top of the blade. The shovels are used to scrape vegetation off the ground and throw dirt onto the flames.

Name:	Shovel with ash handle
Material:	65Mn Steel
Dimensions of Head:	295X245mm
Handle Length:	48"
Weight:	2kg (with handle)
Packing:	12pcs/woven bag
Woven bag size:	150X30X30cm
Product Code:	55000048
